Sudan Knowledge Body

Mission: Support the development of home country by providing experts advice and technical knowledge to solving problems and exploiting potentials and resources
 Vision: Support home country growth and development

Mission Achieved

L5

Achieve level 1 objectives

Development and Growth underway

Committee 5

Measure:

L4

Achieve level 2 objectives

Health and Medical care Agriculture Energy Food Industry Public Services Manufacturing
 Public Sector Reform Governance & Accountability

Committee 4

Measure:
- No of sectors supported

L3

Achieve level 3 objectives

Implement project → Monitor performance and document learnings → Improve planning and implementation process → Support private sector to invest in similar projects
 Case Studies (at best practices) Assess/critique government practices

Committee 3

Measure:
- No of project implemented
- No of Conferences held

L2

Achieve level 3 objectives

Experts Knowledge Project Management Strategic Planning Quality Management / Continuous improvement tool box Training IT and Computer New Technology and innovators Auditing and performance measurement
 Replicate Copy & Paste best practices

Committee 2

Measure:
- No of techniques in use
- No of Training Modules

L1

Achieve level 5 objectives

Members subscriptions Business Contribution United Nation support EU support Civil right groups

Committee 1

Measure:
- No of sponsors
- Money available
- No of Trained Staff

Lay the ground to achieve stability

• Run awareness and educational sessions to all stakeholders about mission, vision, aims and objectives of the Knowledge Body
 • Communicate objectives of Knowledge Body to government and obtain approvals/permission to proceed.
